About the Science Day

National Science Day is celebrated in India every year on **28 February** to commemorate the historic discovery of the **Raman Effect** by the eminent Indian physicist **Sir C. V. Raman** in 1928, for which he was awarded the **Nobel Prize in Physics (1930)**. This day marks a proud moment in India's scientific heritage and highlights the importance of scientific research and innovation in national development. The observance of National Science Day aims to promote **scientific temper**, encourage **curiosity and critical thinking**, and inspire young minds to pursue careers in science and technology. It also serves as a platform to reflect on the role of science in addressing contemporary societal challenges and advancing sustainable development. By celebrating National Science Day through academic deliberations, competitions, and outreach activities, institutions reaffirm their commitment to fostering a **culture of science, innovation, and societal responsibility**.

About RC College

Starting its journey in **1971**, **Ramananda Centenary College** has created a history in spreading educational opportunities for the people of neighboring districts as well as marginal section of the region. The institution is affiliated to **Sidho Kanho Birsha University** and currently offers **Honours degree** in nine Arts subjects and five Science subjects. The college's specific mission is to instill knowledge and awareness among the students as well as people of the region.

About the Seminar

Join us at RC College on **February 27–28, 2026**, for a two-day International Seminar in celebration of **National Science Day**. This seminar aims to bridge the gap between sustainable scientific innovation and real-world societal impact through a multidisciplinary lens. Featuring keynote addresses by renowned experts from prestigious institutions, interactive sessions, and student-centric competitions, the event promises to inspire the next generation of scientists and researchers.

The seminar will delve into themes spanning **Chemistry, Physics, Botany, Zoology, and Mathematics**, with a focus on green technologies, health innovations, environmental sustainability, and data-driven solutions. Alongside the seminar, we will host a **Scientific Debate Competition** and a **Scientific Quiz Competition** for school students, fostering critical thinking, scientific temper, and collaborative learning.

Be part of a platform that encourages dialogue, discovery, and development—where science meets society.

Venue

The conference will be held at **Room – 16, Ramananda Centenary College**, Laulara, Purulia, West Bengal.
